

# Serviceability in the Area of Vehicle Transporters and Their Load Securing

## Prerequisite for the FVG Module

### General Module:

(Not available through FVG)

### Load securing training according to VDI 2700 Sheet 8

Recognizing and assessing force-transmission points on load-securing elements in frames and body structures.

## FVG Module (Manufacturer-specific)

Body construction according to VDI 2700 Sheet 8  
(FVG GmbH & Co. KG)

### Training Objective:

We aim to qualify you as competent persons for the inspection of certified vehicle transporters manufactured by FVG GmbH & Co. KG, based on guideline VDI 2700 Sheet 8.

### Training Content:

- FVG – Wheel chocks
- FVG – Vehicle body structure (body stiffness)
- FVG – Driving surface elements including anchoring points
- FVG – Serviceability in the area of vehicle transporters and their load-securing equipment
  - Driving surface element
  - Wheel chock
  - Special equipment

### Duration of the Training:

- 4–6 hours

### Training Location:

The training takes place at FVG GmbH & Co. KG.

- Dügstruper Straße 38,  
D-27793 Wildeshausen

Upon request, we can also conduct this training at another location.  
Unfortunately, online training is currently not possible.

### Training Prerequisites:

#### Option A:

- Proof of successful participation in the "General Module (Load securing training according to VDI 2700 Sheet 8)"

#### Option B:

- Confirmation of participation from other body manufacturers on the topic of load securing according to VDI 2700 Sheet 8

#### Option C:

- Other proof of knowledge in the field of load securing according to VDI 2700 Sheet 8

### Target Group:

- Fleet managers
- Workshop supervisors
- Persons with professional experience in vehicle transporters
- Company management
- Expert assessors

### Notes on the Event:

If possible, a customer vehicle of your choice should be available on-site on the training day.

### Certificate of Participation:

Proof of successful completion of the module is issued in the form of a certificate valid for 2 years.

### Training Fee:

- €1,200.00 per training session

We will gladly send you an individual offer!
